Summary

BCA graduate and aspiring Software Developer with hands-on experience building full-stack web applications using the MERN stack. Proficient in React.js, JavaScript, Node.js, Express.js, and MongoDB, with practical knowledge of REST APIs, JWT authentication, and database operations. Developed projects featuring AI-powered functionality, responsive user interfaces, and secure authentication workflows. Familiar with Git, GitHub, and API testing using Postman, with a strong interest in problem-solving and continuous learning.

Skills

Programming Languages: JavaScript, Java, SQL
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, SQL (Basic)
Authentication & Integration: JWT Authentication, Cookie-Based Authentication, Google Gemini API
Tools & Platforms: Git, GitHub, Postman, Netlify, Render
Additional Skills: Excel, Power BI, Data Structures and Algorithms (Basic, Java)

Academic Projects

AI-Powered Code Reviewer | Academic Project
React.js, Node.js, Express.js, Tailwind CSS, Google Gemini API

- Developed an AI-powered web application that analyzes submitted code and provides AI-generated feedback, suggestions, and explanations.
- Built REST APIs using Node.js and Express.js to integrate Google Gemini API for code analysis.
- Designed a responsive user interface using React.js and Tailwind CSS for an improved code review experience.
- Completed and presented the project as part of academic work, with verification by the Head of Department (HOD).

Projects

- InterviewPilot | AI-Powered Mock Interview Platform
  React.js, Node.js, Express.js, MongoDB, Firebase, Redux, OpenRouter API
  - Developed a full-stack AI interview preparation platform that generates personalized interview questions based on users' resumes and skills.
  - Implemented Google authentication using Firebase and JWT-based authentication for user sessions.
  - Integrated an AI API to support mock interviews, answer evaluation, follow-up questions, and interview performance scoring.
  - Built features for interview history, credit management, and interview reports to provide a structured practice experience.
- AI-Powered Code Reviewer | Intelligent Code Analysis Tool
  React.js, Node.js, Express.js, Tailwind CSS, Google Gemini API
  - Built a full-stack web application that analyzes submitted code and provides AI-generated feedback, suggestions, and explanations.
  - Developed REST API endpoints using Node.js and Express.js to communicate with the Google Gemini API.
  - Designed a responsive user interface with React.js and Tailwind CSS for submitting code and viewing review results.
  - Implemented error handling for API failures and rate limits to improve application reliability.
- Personal Portfolio | Responsive Developer Portfolio
  React.js, Tailwind CSS, Framer Motion
  - Designed and developed a personal portfolio to showcase technical skills, projects, and resume.
  - Built responsive layouts and reusable React components to maintain a consistent user experience across devices.
  - Implemented smooth animations and interactive UI elements using Framer Motion.
  - Applied responsive design and frontend development best practices to improve usability and presentation.

Education

Bachelor of Computer Applications (BCA)
Dr. Ram Manohar Lohia Avadh University, Ayodhya, Uttar Pradesh
2023–2026 | 72.03%

Intermediate (Class XII)
S.R.S. Inter College, Ayodhya, Uttar Pradesh
2022–2023

High School (Class X)
S.R.S. Inter College, Ayodhya, Uttar Pradesh
2020–2021
